Dear Mayor Lily, Community Leaders, Seniors, and Guests,

This is really a surprise for me to stand up here to speak to you after Mayor Lily. I was just coming to this Lunar New Year of the Rooster celebration as a guest.

A city is shaped by many people, from speculators to visionaries. It is thus a complex system, subject to almost organic laws of development, a system largely created by those who use it – us, speculators, visionaries or not.

This is what makes the Great City of Fremont unique: its diverse ethnic groups.

Like the director of London’s Design Museum, Deyan Sudjic, says, “Successful cities are the ones that allow people to be what they want; unsuccessful ones try to force them to be what others want them to be.”

Lisa C., Sandra M., Dr. Lim, Mayor Lily M., and Mao L. (Jan 26, 2017).

In addition to all the high-tech, what makes the City of Fremont great is we have the first female City Mayor Lily and her council members, working closely and tirelessly with community leaders such as Sandra M., our host today, to make the city a successful city.

Dr. Hwa A. Lim and Mayor Lily Mei of the City of Fremont. (Jan 26, 2017).

May I wish all of you a Prosperous Year of the Rooster,
農曆新年快樂!
